

WESTERN CAPE Education Ministry

Provincial Government of the Western Cape

27 August 2009

The Ministry for Education in the Western Cape would like to extend its full support to the members of Team Zealous from Stellenbosch High School who will be competing in the 2009 Formula One in Schools World Championships in England on the 15th of September 2009.

The members of Team Zealous will be representing South Africa as they compete against 31 national champion teams from countries such as China, Australia and the United States of America. Each team will be competing to win the Bernie Ecclestone World Championship trophy and scholarships at City University London.

One of this administration's key priorities is to expand the number of learners in the disciplines of science, technology, engineering and mathematics. We are therefore pleased to see that learners who take part in the F1 in Schools Challenge are given the opportunity to improve these skills, while further developing their knowledge in physics, aerodynamics, design, graphics, manufacturing, branding, sponsorship, financial planning, marketing, and media - all in a practical, imaginative, competitive and exciting way.

We wish the team the best of luck, and no matter the outcome of the competition, we know they will do both the Western Cape and South Africa proud!

Kind Regards

Donald Grant MEC
Minister for Education - Western Cape

Golden Acre, Adderley Street, Private Bag X9161, Cape Town 8000
